

“The Rosewood 590”

The flagship of the Brentnall Homes Collection features 100 squares of spacious living under roof

Even though Brentnall fully build luxury custom designed homes in the million dollar range, they can also supply both these and smaller homes anywhere in Australia in a quality “Kit” form. This makes Brentnall probably the only company in Australia, who can supply homes in a “Kit” form from one hundred thousand dollars to a million dollars.

Clients can also have their home built to “lock-up” stage or fully-built, the choice is theirs.

Brentnall’s team include an architect

whom they consider to be one of the top residential architects in Australia, who individually designs each client’s home.

Brentnall’s foremen are themselves licenced builders and have been with the company for many years. Each foreman is assigned to only one project at a time, thus guaranteeing a high quality of workmanship. This is in contrast to some of the larger building companies, where the foreman is allocated sometimes ten to twenty jobs

to supervise at one time.

Brentnall’s reputation has spread beyond New South Wales. Their individually designed homes can be found in Noosa and Cairns in Queensland, Alice Springs and Katherine in the Northern Territory, Victoria, South Australia, and even as far away as Kununurra in Western Australia. All their homes perfectly complement our climate, landscape and lifestyle.
